Value for money headphones

Reviewed in India on 21 September 2023

Colour: Black Style Name: TUNE770NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

I like this product for the value for money it provides. I've been using this headphone for the past week and I'm happy to report that my experience has been pleasant while using these for a person who's not a hardcore audiophile.

PROs:

- (a) Comfortable over the ear fit for average ear size; headphones do not feel heavy over long use
- (b) Over par, more than advertised battery life. Easily lasts a week with heavy usage and ANC turned off. And 3-4 days with moderate ANC usage.
- (c) App support is amazing on android. Provides the following features:
 - (i) Active Noise Cancellation
 - (ii) Ambient Noise Aware
 - (iii) Talkthrough
 - (iv) Self voice aware volume control

It's the best, but there are better.

Reviewed in India on 10 June 2024

Colour: Blue Style Name: TUNE770NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

- 1.Appearance is good, good fit perfect balanced weight goes smooth and easy over the ears. But too much or usage might get little warmth but that's okay I must say.
2. Value for money : yes sounds good clear voice and all instruments but can't expect too loud sound and heavy bass. Because it's simply not designed for heavy musics.
- 3.connectivity it's very much better in this devise. Well I've seen some connection drops in the darker area (i.e phones in pocket, phone in the bag or in the glove box of a car) but not too bad I must say, it fights really hard and good to maintain good connection.
- 4.build quality & attention: build quality is fair I can say a bit of mettle and major combination of soft plastic and cushion makes it light and strong. And yes people will look at what your wearing they show some good attention.

Conclusion :Just had this gig for some days that's all . So far so good I can say. But the way they build this and tech used in this it should easily last for about 2-3 years. But be sure to buy some extra warranty for 2

Great Audio at this price point

Reviewed in India on 28 August 2023

Colour: Black Style Name: TUNE770NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

Been a genuine fan of JBL when it comes to audio. There weren't many reviews when I bought it so here's my take -

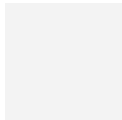

There's just one con: the multiport connectivity is a joke. Its pretty much useless since I have to on and off Bluetooth to switch devices.

The good stuff-

I'm an audiophile on a budget and this fits perfectly for my needs. The audio is amazing, EQ customisation in the app is great. Super soft and easy on the ears and head. I wear them for long hours and didn't feel any pain or discomfort (which happens with headphones in general). Sweat, might be an issue and honestly it's just because of global warming. I have a Sony On the ear headphones (wired) and it made me sweat a lot - super annoying. But haven't faced that with this one! There's huge difference in the audio quality between JBL and boAt. BoAt audio sounds super cheap compared to JBL. Battery life is a beast on this one. You don't have to think twice. I also use it for making my music and it does it really well!

So if you need a headphones for long hours and great audio/call quality and damn good bass, go for it.

ANC is decent. Fan and people talking in the same room gets reduced but not cancelled entirely. It's Adaptive NC not Active NC.

Best "Value for money"

Reviewed in India on 6 December 2023

Colour: Black Style Name: TUNE770NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

Sound clarity & build quality is good. superb battery backup. connectivity, dual pairing

& customisation in JBL app is nice. Bass is nice

Talk thru is better, ANC is not as expected...

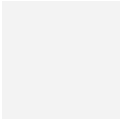

Should keep the volume above 80% while watching movie on Amazon prime, Netflix, hotstar etc, but works better on some other ott platforms..

Listening latest audio through YouTube music and Spotify is superb . But bit old songs are not punchy. Sometimes audio break for 1 second while listening movie or song. I hope this issue might be solved through future software updates..

Audio quality - 8.5/10

Bass - 4/10 for old songs

Qualidade excelente, não esperava menos.
A qualidade de áudio é muito boa e o encaixe também, achei muito confortável e se adapta a diversos formatos de cabeça, mas acho importante ressaltar que ele pode ser apertado nas orelhas e a parte de espuma não é grande o suficiente para se encaixar do jeito mais confortável, o que não me incomoda, mas é algo para considerar.
Como ele se encaixa muito bem, eu posso usar em várias atividades diárias, inclusive para me exercitar, e ele permanece fixo sem nem ameaçar cair.
A duração da bateria é extraordinária e eu posso usá-lo confortavelmente durante várias horas de estudo. Recomendo, ótimo custo-benefício.

em relação a entrega:

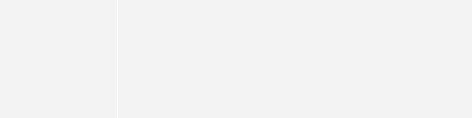

chegou rápido, por volta de 10 dias a encomenda já estava na minha casa, veio perfeitamente embalado e nada amassado

em relação a estética do fone:

muito bonito, não é muito leve e nem muito pesado, peso ideal!! O seu tamanho também é ideal, pois não

é muito grande, ele é dobrável o que ajuda caso queira guardar na bolsa, vem com três botões e a loga marca da jbl! Ele é fosco lindíssimo

O melhor fone custo X benefício

Reviewed in Brazil on 15 February 2024
Colour: Black Style Name: TUNE770NC Pattern Name: Over-Ear BT with NC **Verified Purchase**
Estava há muito tempo buscando um fone de ouvido Bluetooth com cancelamento de ruído ativo até 500 reais, até me deparar com esse da JBL. Opinião após um mês de uso: espuma muito confortável, utilizo o fone o dia todo (e uso óculos), se encaixa bem na cabeça e não tive problemas nem correndo até o metrô. Possui cabo p2 removível, mas devido a duração da bateria, só usei para testar (carregou o fone uma vez a cada 2/3 dias, com uso contínuo). Cancelamento de ruído bom (nada excepcional, mas cumpre seu papel). Apresenta ruído em trepidações (como em trens/metrô), possivelmente vindo do microfone, mas nada que atrapalhe muito a experiência. Padrão de qualidade sonora clássica da JBL, com foco nos graves acentuados. Recomendo a compra!
