Customers say

Customers like the battery life and build quality of the headphones. They mention that it has a great battery life, lasting around 35 hours on a single charge. Some appreciate the well-padded headband and soft ear cushions. That said, some complain about the performance. Opinions are mixed on sound quality, connectivity, comfort, value, and quality.

JUST GO FOR IT!! DONT LISTEN TO OTHER REWIEWS

Reviewed in India on 15 October 2023

Colour: Black Style Name: TUNE710BT Pattern Name: Over-Ear Bluetooth **Verified Purchase**

I can't believe I almost cancelled this product checking other reviews saying it has low sound and bass. So I had with 0 expectations reading the reviews I got it for a good price at 2800 so I just went for it.

At first when I got the headphones I was disappointed when I heard coz I put max volume on my phone and the bass and sound was low BUT THATS THE MISTAKE I THINK MOST PPL PUTTING THE REVIEWS COZ THATS DEFAULT SOUND which is very low

You will have to put a song or play video it won't work otherwise AND THEN MANUALLY INCREASE THE SOUND BY CLICKING THE VOLUME BUTTONS ON THE HEADPHONES TILL U HERE A SOUND TICK SOUND WHICH MEANS IT REACHED MAX VOLUME.

I did not know this I just found it and UFF the sound and bass increased SIGNIFICANTLY.

SO REMEMBER TO DO THIS THIS WHEN U BUY THE HEADPHONES

After doing that And you still want even more bass and sound then idk do you want ur head to explode or somethin coz it has VERY LOUD AND GOOD SOUND AND BASS!!

OH Yes it's comfortable too not for too long but enough time life 5 or 6 hrs IF u have big ears it might hurt after sometime but for me it's PERFECT.

Great headphone, but lacking app support

Reviewed in India on 5 June 2022

Colour: Blue Style Name: TUNE760NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

I have been using the headphones (TUNE 760) for more than a month, here is my review

At first (2 days of purchasing) I was very disappointed because I felt that the sound quality was very lacking, the base and loudness disappointed me, but after a week, it started to sound very very good, I think it needed a burn period, because this headphone is now sounding very very good for me.

Build Quality - the build quality is good, no major issues, the pad is soft.

Comfort - the headphone is comfortable, but one issue is that the clamping force is a bit tight, maybe because I have a big head. Another thing is, even though this is an over ear headphone it is not that big, so some part of my ear gets a bit uncomfortable after long use, but if u adjust and find the correct comfortable position, you can wear it for a long time, I watched a 3 hr movie without any issues

Well budgeted ANC headphones with lots of good features

Reviewed in India on 22 October 2023
Colour: Black Style Name: TUNE760NC Pattern Name: Over-Ear BT with NC **Verified Purchase**
Pros: good sturdy build and good connectivity and battery life, and aesthetically looks good on you. Active Noise Cancelling is great too.

Cons (likely):

- * Charging port doesn't allow for using while charging. I had this in my last headphones (non-brand, cheaper!) and it's so convenient that you miss it and curse whoever is lacking behind in this basic feature. But the good battery backup leaves you plenty time to recharge.
- * Too tight. Again, a basic feature IMO to make it feather light which again, a lot of cheaper non-brand headphones are offering, such a shame to see it lacking too. Ears will get hot even in winter/AC. But great if you're a runner, they won't come off.

Power On issue

Reviewed in India on 28 June 2024
Colour: White Style Name: Tune510BT Pattern Name: On-Ear Bluetooth **Verified Purchase**
We received a product and it has power on issue and didn't get any solution from Amazon as they asked to visit service center instead of refund or replacement when we reached the service center they just made the excuse by telling our product damaged any one can clearly see in pictures that it is not damaged, it has manufacturers defect which we can't see from outside. Please don't waste your money buying this product form indian sellers as I think they are just selling fake products in the name of brand as I am using this same model in canada its working good have no issues. Moreover amazon customer service just focus on their feedback even without completing the requests from customer. Very disappointed as we spent extra money amd time to reach service center and didn't get any solution.

No Bass, Not suitable for music listeners

Reviewed in India on 8 March 2024
Colour: Black Style Name: TUNE760NC Pattern Name: Over-Ear BT with NC **Verified Purchase**
After using 2 weeks my thought about JBL 760NC is, Not worthy I feel. Spent around 5400/-. No Bass if you listen songs it was like speech. Only voice is clear.No bgm and bass quality is bad.

Pros: As others said Noise cancellation is good really. worth for that. Little bigger size though I am having big still it looks big for me. Model wise average. NC wise Good and Bass wise bad.

Overall rating: Okay to min expectations

comprei esse fone faz bastante tempo e a bateria dele dura dias, além de ser confortável e não apertar ou ficar muito frouxo na cabeça, o áudio é muito bom e dura bastante. já está descapelando mas faz parte do ciclo de vida, uso bastante e diariamente. recomendo.

Perfeito!

Reviewed in Brazil on 21 December 2023

Colour: Black Style Name: TUNE760NC Pattern Name: Over-Ear BT with NC **Verified Purchase**

É um fone muito bom! Também é lindo e resistente. A bateria é perfeita! 📶 Comprei tem quase 1 ano e só carreguei 2 ou 3 vezes... o antirruído funciona bem na academia e com barulho de ventilador.

Ele é confortável, porém depois de um tempo começa a doer as orelhas, mas é normal desses fones que apertam um pouco. Ele aguenta bem o suor da academia, mesmo não sendo a prova de suor.

Depois de muitos meses de uso ele continua intacto. E o som dele é muito bom, e pode ficar a muitos metros de distância que ainda funciona! Então, foi uma compra que valeu a pena, mesmo sendo um valor alto. 🧐

Acessível, bom som e bateria que duuura

Reviewed in Brazil on 18 January 2023

Colour: White Style Name: Tune510BT Pattern Name: On-Ear Bluetooth **Verified Purchase**

Geral: Comprei há uns 8 meses e funciona perfeitamente. Não tive problemas, bastou seguir as instruções.
Dica: evite "dobrar" os fones pq isso tensiona os fios que passam dentro dele nessas "dobrinhas".
Usabilidade: uso principalmente pra treino/academia. Também cumpre o básico pra áudio de games/jogos, mas por ser conectado por bluetooth ele apresenta um atraso/delay no áudio (+ou-1segundo, e acredite, em alguns jogos faz diferença).
Ajuste: No começo ele pode ficar um pouco apertado (mas acho q é pq tenho a cabeça grande, rs) mas depois de um tempo ele vai folgando, sem ficar mto solto ou cair. Hoje (8 meses de uso) ele fica confortável/ok. Ele tem ajustes de comprimento (caso fique "curto" e n alcance suas orelhas) e de ângulo de abertura (pra encaixar e abafar melhor suas orelhas). Não acho que seja pesado.
Bateria/energia: a bateria dura muito! Carga de 2h, pra mim, dura mais de uma semana. Pra recarregar, vem um "cabinho" que conecta em entradas USB, tipo aquelas de carregador de celular comum (a ponteira/flecha/carregador não acompanha o produto, apenas o cabo).
Custo/valor: Tem o preço acessível comparado a outros modelos da marca e cumpre muito bem a sua função.
